> विषय : Integration of websites of Urban Local Bodies (ULB's) with NOCAS 2 Website

महोदय,

With reference to the subject cited above, please find the soft copy of CCZM (Colour Coding Zoning Map) in CD to integrate in your official website for single window clearance for building/tower height. As per GSR 751 (E) ULB's are empowered to clear building/construction proposal if the elevation is below the elevation permitted by CCZM.

So, kindly integrate the CCZM in your official website for implementation of CCZM in Jaipur.

The feedback received may please be forwarded to this office.

धन्यवाद,
